

Equity Learning and Action Working Group

Meeting #1

December 5, 2019

4:30 PM – 6:30 PM

Vallecito Elementary School

Exit Card Responses (voluntary and not everyone provided one)

Prompt: I came in thinking/feeling....I'm now leaving thinking/feeling...

I came in thinking this would be “touchy-feeling” but came out satisfied we will do real work.

I came in thinking “What would it be like?” and I’m now leaving “I learned a lot and I hope everyone is patient. We’ll get to the “doing.”

I came in wondering if I had to remember our last session. I’m now leaving wanting to know more

I came in thinking this endeavor may not be effective. I am leaving now feeling hopeful! 😊

I came in worried that the work would not feel deep enough for the community. Now I feel like we have engagement and a willingness to work together as team members.

Came: uncertain. Leave: More clear/focused

I came in feeling nervous because I was really late. I’m leaving feeling so happy I came, even for the end because I love the mission of this group and the presenter is excellent.

I was lost and confused as EQUITY was not defined @ our first meeting in October. Now I feel good learning about the history of inequity & now have a better sense of what we want to do.

I came in wondering what this would be like. I am leaving feeling good about the education but am still wondering about what will actually be done.

I came in feeling hesitant. I am leaving thinking about institutional equity.

I came in thinking I wasn't sure or knew about the group's overall purpose but now I am leaving confident and hopeful for my role and the group's overall purpose.

I came in feeling like this process was going to be contentious. I feel now that this process is going to work well. I hope others feel that too.

Came in: open minded, curious. Leaving: daunted, in a good way, enriched, interested to integrate

Came – curious. Leaving – with more questions, excited this work is being done.

I came in thinking the definition creating would be boring but I learned A LOT.

Came in feeling stressed & tired. Leaving feeling refreshed.

Thank you. I came feeling curious. Looking forward to learning more & taking action on equity work in this district.

I came in thinking about myself (and how tired I was!) and I'm leaving feeling fed (physically and mentally). I really enjoyed the eugenics history activity and more excited for more 😊 thank you!!

I came in wondering what is next. I am leaving with a better sense of purpose – a careful reflection on words we use.
