

Miller Creek District DEI committee meeting #3

Feb. 25, 2021

Required: one thing I'm looking forward to/appreciating is _____.

Optional: One Question that is raised for me

Really appreciating that we have a working committee document and district wide work

Very appreciative of the team and progress made thus far. Brighter and better and mask-free future ahead!

Looking forward to more engagement and action. Question – How can I be more proactive in supporting this work in my schools.

Looking forward to seeing that full survey and getting feedback from students and parents.

Coordination between sites is a great.

Love how the site committees around the district committee.

Question for myself: how to get my children to think about these things

Appreciate the reflection on the Family Life unit

I appreciate the opportunity to see the survey

I appreciate hearing from others

More stories and learning from others. Welcoming positive and proactive leadership!

Looking forward to putting some of this great work into practice!

One thing I'm looking forward to is meeting people in person one day! So nice to spend time together on Zoom for today.

I appreciate the dedication of this group of staff and families. I look forward to continuing the very important work with this community.

The continued work of the MES DEI group and district work. Thank you all for engaging!

Love the new structure outline

Appreciating the survey idea. In this question, I wonder if we can simplify the survey without watering it down. Hard to do but would really like parents to respond.
